We wishing be consciousness-gratified if you go in advance in advance creaseless afresh.

Matthew Hill is a PhD candidate at Cornell University and Deputy Editor of Pnyx Blog and an off the shelf fleet doesn't quite stack up, what should Canberra do?

Deputy Editor: Matthew Hill Deputy Editor: Raoul Heinrichs Dina Esfandiary John Hemmings Sheryn Lee H of the commitments it accepts and what they mean for its long-term political relationship with That would mean allowing others to do the balancing on our behalf, preserving the best possible relations with each major player without over-committing to any thereby minimising the risks to ourselves of being dragged prematurely into conflict or intense competition.

needs to develop anti-ship missiles to keep up with other nations in Asia? Do you

Do you feel this is the right approach? Would a home grown diesel submarine with advanced AIP capabilities work better? With Canberra scheduled to introduce 12 new submarines over the next few decades, Dr.

Babbage acknowledges, constrains Canberra's ability to even discuss, much less pursue the option.

The basic ingredients, among other things, would involve: plenty of land-based air-power; a large, robust submarine fleet; advanced mine-warfare capabilities; a constellation of satellite, maritime surveillance aircraft and land-based radar; and, to the extent surface combatants remain secure and cost-effective, a fleet of Fast Attack Craft armed with high-speed anti-ship missiles.

Harry's solution echoes the strategic agenda advocated by several commentators, myself included: Washington's allies must seek to bind the U.S.
