Print Article | Share Article Raoul Heinrichs is Sir Arthur Tange Scholar at the Strategic

Using a development model similar to that which Japan has used to produce the Soryu Class from the Oyashio boats, this would rely on building new boats from technology that had been demonstrated and matured in successuve upgrades to the existing Collins fleet.

Distinguishing between alliance perceptions wedded to assumptions of static U.S.

the Anglo-American tradition of sea-power: sea-control dependent on ever larger surface combatants remains the dominant

In peace-time, they serve as a powerful deterrent.

strategy which is not, frankly, a self-evidently prudent course for Australia to take.

primacy fades, Canberra could find itself either having to assume a much greater burden on behalf of the alliance or learning to expect much less out of it or, perhaps, both at once.

Yet I must admit to growing doubt regarding the viability of achieving strategic stability.

China is Australia s largest trading partner, but just recently reaffirmed its strategic alliance with the U.S.

The visit included stopovers in Canberra and Darwin, the two places most pertinent to a new bilateral defense arrangement, and a speech in which Obama reasserted U.S.
