Do you feel this is the right approach? Would a home grown diesel submarine with advanced AIP capabilities work better? With Canberra scheduled to introduce 12 new submarines over the next few decades, Dr.

of the commitments it accepts and what they mean for its long-term political relationship with

That would mean allowing others to do the balancing on our behalf, preserving the best possible relations with each major player without over-committing to any thereby minimising the risks to ourselves of being dragged prematurely into conflict or intense competition.

Harry's solution echoes the strategic agenda advocated by several commentators, myself included: Washington's allies must seek to bind the U.S.

Whether this is possible will obviously depend on specific design parameters of the platforms themselves, and in particular on whether they can operate far enough forward to thwart inter-archipelagic supply lines and fulfil Australia's longstanding strategic objectives in Southeast Asia.
