to the region, not as a hegemon, but as a regional power with vested interests in offsetting the excesses of China's legitimate influence in East Asia.

Babbage is right about the centrality of submarines to Australian defense policy.

In this regard, Air Independent Propulsion systems will be a salient consideration.

feel it should base its strategic thinking on China's growing capabilities? What type of vessels

One option, recently mooted by ASPI's Andrew Davies, is to build a new class

Babbage has spelled out some of the costs and risks associated with his two least preferred options: off-the-shelf submarines, most likely from a European supplier such as Germany, France or Spain lack an optimal level of range, endurance and speed.
