What sets Australia apart is its geographic dislocation from Northeast Asia, the main area of competition, from which it is separated by long distances, an archipelagic screen and, beyond that, continental Southeast Asia. I m considerably more guarded in my enthusiasm.

An indigenous design, on the other hand, risks testing the limits of Australia s technical and managerial wherewithal, with attendant risks of cost overruns, delays, underperformance and onerous service requirements all of which has afflicted the development and upkeep of Australia s Collins Class submarines.

LHD amphibious assault vessels and a new fleet of over-sized frigates all of which will

Of course, a coherent force structure such as this would require a considerable increase in Australian defence expenditure.

Indeed, Australia s defense minister Stephen Smith has already categorically ruled out nuclear propulsion.

Marines into Darwin? President Obama s visit to Australia was, I think, very significant.

Jennifer Rutledge:Australia seems to be in a rather strange and unique position.

In its most controversial form, this argument contends that the enlightened self-interest of Asia s major states should be harnessed towards forming a concert of powers , an institutionalised strategic order echoing that of Europe in the nineteenth century.

As a relatively small power, Australia may one day be forced to choose between the United States and China.
