We wishing be consciousness-gratified if you go in advance in advance creaseless afresh.

Distinguishing between alliance perceptions wedded to assumptions of static U.S.

Using a development model similar to that which Japan has used to produce the Soryu Class from the Oyashio boats, this would rely on building new boats from technology that had been demonstrated and matured in successive upgrades to the existing Collins fleet.

Print Article | Share Article Raoul Heinrichs is Sir Arthur Tange Scholar at the Strategic strategy which is not, frankly, a self-evidently prudent course for Australia to take.

primacy fades, Canberra could find itself either having to assume a much greater burden on behalf of the alliance or learning to expect much less out of it or, perhaps, both at once.

the Anglo-American tradition of sea-power: sea-control dependent on ever larger surface combatants remains the dominant

In peace-time, they serve as a powerful deterrent.

Finally, and perhaps most importantly, the fundamental rationale for a powerful submarine fleet is to augment Australia's independent strategic weight that is, to fulfil Canberra's longstanding requirement of being able to defend the Australian continent without relying on the combat forces of another country.

Yet I must admit to growing doubt regarding the viability of achieving strategic stability.

So, while it's very important, I'm not holding my breath.
